VL118

A CLASSIC IN

MANY STYLES

The chair VL118 was first introduced in 1964 and initially a steel framed chair with a plywood seat and back rest. We looked into the archives of old drawings of the design chair. The organic lines and superb comfort struck us, and therefore our design team decided to redesign the chair in order to bring it back to workplaces and in private homes.

VL118 is available with 2 types of frames; classic or with swivel function, with the possibility of auto-return or castors. The frame is available in 3 different types of finish - silky mat chrome, shiny chrome or black powder coat. The seat and the backrest are true to the original in every shape in order for the chair to maintain its fantastic comfort. It is available in different types of wooden materials, upholstered with Danish textiles in high quality materials or exclusive semi aniline leather. It is possible to combine different types of frame-, backrest- and seat-types in order for the chair to express your taste and style. possible to combine to suit every taste.
